E.g. stamp, flexography, letterpress, etc. Direct printing – prints are done by applying printing paste on the matrix and transferring it directly on the substrate. The matrix or templates can be natural and man-made objects such as leaves, snail shell, human foot, sole of footwear, rope, bottle tops, etc. Learners in their groups research the internet for other types of printing and present their findings to the class. Example: Frottage printing, block printing, etc. Demonstrate how each of the printings are made. Guide learners to use the relevant media and techniques in printmaking to create own visual artworks. Have learners display printed artworks for appreciation and reflection and use peer- and self-evaluation to review work. Examples of specific language vocabulary: stencil, block printing, pattern, contrasting color, harmonious color.		Pictures and charts
